

COVID-19 Snapshot 10 Weeks in Review

Resilience, Connection, and Trust

Innovation. Teamwork. Characteristics PMD Alliance proudly shares with you, our partners. With your support, we help folks engulfed by fear to push past fallacies, escape inertia, and plan to fully engage in life. The past 10 weeks have intensified our mission and its importance. Our team, steeped in design strategy and dedicated to serving, responded to the changing reality with a quick pivot. From 500-person educational livestreams to individual cheer calls to intimate technology help sessions, we impacted thousands of people and delivered knowledge, skills, and support. We'll let the numbers tell you more about what we achieved with your support:

Neuro Life Online® Reach

3,600

Discussion topics and questions asked during livestreams

Attendees living with a movement disorder

Attendees who are a care partner, family, or adult child

Attendees who are a community member

*"I am so impressed with your warm quality of communication. Your ability to say it as it is and engage with folks. It just continues and continues and shows in everything that is done. You really move things along amazingly. I've been on the Zoom meetings. I am so impressed with the positive manner that comes through...always looking for the way to **do** things! THANK YOU!"*

Care Partners and Adult Children

Hosted by Anissa Mitchell, LCSW, PMD Alliance offers three virtual support groups each week for people with movement disorders, care partners and adult children, and those with loved ones in a facility. Peers join together to share tips, ask questions, and get social despite physical distancing.

Providing a little CHEER!

The Cheer Call Initiative was developed to reach out to people impacted by movement disorders (people with Parkinson's and care partners) who may be experiencing a sense of vulnerability. A simple connection of a friendly voice over the phone can help immeasurably.

2,174 calls made
by staff and volunteers

15 community
volunteers

93 corporate
volunteers

Thank you for your partnership! Together we
are creating resiliency and enriching lives.
