

Everything can be completed virtually and the study is voluntary.

We prefer to interview participants as a pair (person with Parkinson's and a family member), but individual interviews are also ok! Interviews will take about 1-2 hours.

If you are interested in participating, please contact Dr. Jiayun Xu (aka J)

LOOKING FOR PARTICIPANTS!

We are conducting a research study (IRB #: 2021-1021) titled:

Feedback on a Parkinson's Disease medical care planning resource.

We are looking for participants to complete an interview to work through the care planning resource and provide feedback!

Participants can be:

- a person with Parkinson's Disease or
- a family member who is/was caring for a family member with Parkinson's within the last 5 years

Participants must be:

- Able to speak and read English
- Willing to be audio-recorded
- Have access to a phone or the internet

Participation may help patients and families better prepare for the future

As a thank you, participants will receive a \$30 Amazon gift card.
