

PARTICIPATE IN A RESEARCH STUDY ON PARKINSON'S DISEASE PHARMACOLOGICAL MANAGEMENT DECISIONS!

Are you:

- ✓ **An adult (18-80) diagnosed with Parkinson's Disease** currently taking medication but not undergoing surgical/medical interventions?
- OR
- ✓ **A neurologist, physician assistant, or nurse practitioner** treating patients with Parkinson's Disease?

We invite you to take part in a **research study** exploring **how individuals with Parkinson's Disease and their healthcare providers make decisions about medications.**

Why participate?

- ✓ Help us understand how patients and healthcare providers work together to make decisions

How to participate?

- ✓ Complete a brief, anonymous survey (10–15 minutes)

You can make a difference in Parkinson's management.
